

Growing communities one idea at a time.

Committee formed to build permanent skate park

Community Futures North Central Development (CFNCD) is taking a facilitative and participatory role in this community-based committee. The group is working towards a permanent skate park to be built in Thompson in Summer 2008. It is made up of over 70 community members, with about 60% of these being youth. The youth have been active participants in the process; presenting to the City, providing input to the architect consultant, arranging the fundraising kick-off and fundraising activities. The City of Thompson, business and service organizations are all involved in this community youth development project. Benefits and beneficiaries of building a skate park using this model include youth, families and communities. Community safety is increased, as youth who have opportunities for meaningful participation in their communities are less likely to engage in risky behaviours and have a greater chance of con-

tinuing community involvement as they grow into adults. By removing youth from street skating, skate parks reduce the chance of "street" injury for youth and public. It is an affordable, accessible sport that can be picked up at one's own pace, and addresses barriers to being active such as poor access to facilities and costs associated with memberships. Allowing youth to become

involved in the civic process changes the perception of youth from "punks" and "rengades" to active community members. It develops a sense of pride and ownership over the space created, and creates a space for community to gather. Skate parks attract not only the skaters, but also viewing family, friends and the public at large. This is an exciting project, and we will keep you updated!

Does your community have a Development Plan?

If you don't have a map, how do you get to where you want to go? CFNCD hopes to develop community plans in communities where none exist, in order to determine what community members see as the focus of needs in

community economic development. CFNCD will then be able to define where gaps and opportunities exist in the services and assistance presently provided. The first step in this process is to do an inventory of existing com-

munity plans. CFNCD is presently working on that, so if you can offer any information or advice regarding your community having a development plan in place, please contact Charlene or Leslie at 1-888-847-7878.

CFNCD and SMD deliver workshops across the province

This project year, CFNCD continues to strengthen a partnership with the Society for Manitobans with Disabilities by delivering a series of video-conference workshops focused on disability awareness.

The first workshop of four was held on December 4, 2007 and was attended by eight different CFs, the Society for Manitobans with Disabilities, the Aboriginal Business Service Network and Community Futures Manitoba. The work-

shop topic - "Creating Accessible Print Materials" offered an introduction to creating documents, emails, forms, etc that use plain language. A networking session was also included and was led by Susan Bater.

The following workshops are scheduled for the new year, YOU should plan to attend!

Self-Employment Options

**Wed., January 16th
1:00 - 2:30 pm**

This workshop will examine self-employment as a viable option

for persons with disabilities. Participants will explore accommodations/modifications and available resources for the self-employed person.

Disability Sensitivity Training

**Wed., February 20th
6:30 - 8:00 pm**

In this workshop, participants will explore issues related to disability and the types of accommodations that create an inclusive environment in a business or community project. Etiquette, terminology and tips for

communication will be discussed. This information is especially relevant to those board members who are part of the investment review committees that make a decision about the EDP loans.

ASL/Deaf Culture Tentatively Scheduled for March 2008

Detailed information and exact dates to come.

CFNCD partners with Canadian Youth Business Foundation

CFNCD has recently become a community partner with The Canadian Youth Business Foundation (CYBF). CYBF is a national charity that provides youth, age 18-34, who have a great business idea but are unable to access funds through other traditional sources, with the start-up financing, mentoring and business resources to create their own successful business. Lending based on

character not collateral, CYBF's mandate is to keep entrepreneurship alive and well to create economic prosperity in communities across Canada. Since founded in 1996, CYBF has invested in more than 2,100 young entrepreneurs, whose businesses have generated approximately \$233 million in sales revenue, and have created more than 12,000 new Canadian jobs. CYBF is an

accredited program of Youth Business International, an international network of youth business programs. CYBF is headquartered in Toronto, Ontario, with offices across Canada. Information about CYBF is available at www.cybf.ca. Please contact our office should you have any questions related to how you can access loans through The Canadian Youth Business Foundation.

Self Employment Assistance Program offers business launch support

CFNCD continues to offer business plan development and business launch support with assistance by Manitoba

Competitiveness Training and Trades. This program provides mentoring and informational services for potential entrepreneurs

who are presently on Employment Insurance (EI), or who have had an EI claim in the past five years. For further information, please

contact Leslie at 677-1496, toll-free at 1-888-847-7878 or via email at ltucker@northcentraldevelopment.ca.

Personal and Professional Development Update

By Leslie Tucker

I attended the "Foundations Institute" held by St. Francis Xavier University in partnership with the Coady International Institute in Antigonish, Nova Scotia. This was the 2nd piece of the master's degree I am working towards - in Adult Education in the Community Development Stream. It was an amazing experience to work with people from around the world who are involved in community economic development; and so energizing to walk the ground where a small group of people worked peacefully towards social

change in their region through the Antigonish Movement. An intensive, interesting time - but I missed the snow of the north!

Junior Achievement

CFNCD continues to coordinate the Junior Achievement programming in Northern MB. Junior Achievement inspires students to explore the world of business, economics and free enterprise. Through Junior Achievement's programs, students develop entrepreneurial skills and leadership qualities. We continue to recruit volunteers for the delivery of JA workshops to various school age students. YOU could help motivate a generation of responsible citizens in your community. If you are interesting in volunteering contact Leann at 677-1493 or 1-888-847-7878 today.
